Group number: 49

Project title: Expresso - Coffee Automation

Client & Advisor: Bill Adamowski

</div>

Team Members/Role:

Lucas Collins   (*Communication Lead*)
Jonny Krysh   (*Webmaster*)
Jake Long   (*Technical Lead*)
Garret Meier   *(Team Lead)*
Derek Yu   (*Key Concept Holder*)

Weekly Summary

We met as a team two times to work on the project proposal. In addition to the proposal, we drew out user/consumer flows for the web application.

Past week accomplishments

- Jake: Worked on project proposal (3 hr), met with team to go design choices (1 hr)
- Derek: Worked on the project proposal (4.3 hr) and met with group to discuss customer-facing portion of project (1 hr)
- Jonny: Worked on the project proposal twice (3.5 hr), worked on a list of technologies we will need(1 hr)
- Lucas: Worked on project plan document and met with group to discuss design choices in regards to sections of the product that are customer-facing. (5 hr)
- Garret: Diagramed Consumer flow through technical aspects of the project (1 hr), Worked on project plan (Project Statement, Deliverables, and Past Work) as a group and individually (3.5 hr)

Individual contributions

NAME	Individual Contributions	Hours week	Hours cumulative
Jake	- Worked on project proposal - Went over design choices	4	8.75
Garret	- Project Statement, Deliverables, and Past Work in project plan - Diagramed Consumer flow	4.5	9.5
Lucas	- Worked on project plan document.	5	6.95

	● Discussed design choices for customer-facing product.		
Derek	● Worked on Project Proposal. ● Discussed design choices for customer-facing product.	5.3	7
Jonny	● Went over Project Proposal document and left comments/feedback where possible ● Created a list of technologies we will need for the project (e.g., servers, datastores, API's) ● Started drafting a new concept mock ● Went through the "User" or "Consumer" flow for application	4.5	8.5

Comments and extended discussion

We spent lots of time this week talking about the details of our project's implementation. In order to inform the project plan, and design document, we all went through what a user would see and required back end functionality from signup through delivery of the first package. Plans are to continue refining the user flow from a consumer perspective and then add diagram the same flow from a Producer's perspective.

Plan for coming week (please describe as what, who, when)
- Lucas: Finish work on Gantt charts and the overall team plan for the Fall and Spring semesters. Review the project plan.
- Jonny: Wrap up leftover project proposal work. Go through the Provider flow and highlight technology.
- Jake: Finish project proposal.
- Garret: Finishing touches to project plan, and begin diagramming producer flow. Start work on the data model.
- Derek: Complete project proposal work
- All: Discuss project technical components and further define items for technical design/ project plan.
